and Economic Security,
Cherkasy National University named after Bogdan Khmelnytsky

The stability of functioning, the level of enterprise's economic security and durability are very important. In this context, the research problem of providing enterprise economic security is topical. The situation is complicated by the absence of common views on conceptual and categorical apparatus in the field. Trends in deteriorating socio-economic situation in Ukraine, a result of the many destabilizing factors of both external and internal environments on domestic economic activity entities actualizes the interest of scientists and experts to study the problems of methodical providing for the economic security system (ESS) in the context of strategic management. It is important to explore the process of providing economic security systems in the context of strategic management, to distinguish its main stages, to determine the basic principles for the providing of the economic security system, their specification. The purpose of the article is to define the process of providing economic secu-

urity system in the context of strategic management, to distinguish its main stages, to identify the principles of the economic security system, to determine the level of providing economic security system. It is established that the problem of economic security is current and topical. It is determined the concept of "providing economic security system" by the system approach. The concept can be defined as a purposeful professional or functional activity of economic security that provides a systematic use of technologies, forms, methods and means of the economic security system, involving financial, organizational, informational, analytical, technical, and human resources to counter internal and external threats of economic security. It is identified the following principles of the economic security system in the context of operational and strategic management: efficiency and expediency, consistency and coordination, autonomy and responsibility, planned character and dynamism, legality.
